

YOU CAN HAVE IT ALL.

For millions of people about to get a crown or bridge put in, the dental chair can seem more like the hot seat. Patients often have to choose between a smile that's tough and durable OR one that is beautiful and natural-looking. Luckily, there is a product that finally offers both. Backed by the belief that patients shouldn't have to choose, we created a product called Captek.

You'll call it amazing.

COSMETICALLY SUPERIOR

The first time you see your new crown and/or bridge in place, you'll understand why the dental community has been raving about Captek.

IT'S VIRTUALLY IMPOSSIBLE TO DISTINGUISH CAPTEK FROM HEALTHY, NATURAL TEETH. We call it the "blend-in effect."

This cutting-edge material has intricate light-dispersion effects that will have you seeing the light about Captek's unmatched visual advantages.

Healthy and vibrant-looking Captek crowns enhance any smile.

Typical Crowns

Another unique Captek benefit is that it

ELIMINATES UNSIGHTLY DARK LINES

that are commonly seen with traditional crowns. You'll be amazed to see how getting rid of small lines can make a big, big difference.

Captek™ Crowns

"I'm so happy my dentist and I chose Captek. My self-confidence skyrocketed overnight. I love that my teeth are so strong and healthy, too!"

THE STRENGTH YOU NEED.

Captek is proven. In fact, significant research proves Captek **EXCEEDS**

EVEN THE HIGHEST OF EXPECTATIONS for strength and stability. Captek's exclusive internal structure means

INCREDIBLE TOUGHNESS AND DURABILITY.

For you, that translates into a smile that will stand the test of time.

REMARKABLY HEALTHY.

Captek sets the standard for health.

Captek's special makeup was proven to be even **HEALTHIER FOR THE GUMS**

THAN NATURAL TEETH! With a Captek crown or bridge in place, testing showed a 71% reduction in plaque and bacteria around the gums. This is the only material **PROVEN TO REDUCE HARMFUL BACTERIA.**

Researchers and clinicians refer to Captek as even being "therapeutic" to the gums.

CAPTEK

-THE NATURAL CHOICE

If you want a wonderful, natural-looking smile without compromising strength or health, you want Captek. Along with your dentist's help, the smile of your dreams is easily within reach. So make the right decision.

Choose Captek.

CAPTEK™

Captek is the result of over 30 years of research by an internationally renowned prosthodontist and a world-class dental technician. This heralded scientific breakthrough enables your dentist to deliver natural, long-lasting crowns and bridges that are also healthy for your surrounding gums. Much of this is made possible by the exclusive Captek material found at the heart of these very special crowns and bridges. It's no wonder Captek has become a standard crown and bridge option for dental practices wanting the best for their patients. If you need a crown or bridge, ask your dentist for Captek. It's the best way to get the strong, durable, precise-fitting, healthy and attractive smile you deserve.
